## Innovative Sod Solution.

### ➤ Better Overall APPEARANCE

Aside from the aesthetic beauty of a thick lawn the new 3-D Sod's improved density will help compete with weeds by actually squeezing them out. Plus, 3-D Sod will green-up quick in the spring giving you the first green lawn on the block.

### ➤ Less Needed FERTILIZING

3-D Sod has been specially designed to yield a naturally darker turf. Simply put, this means less fertilizing! You'll be able to have the same rich green lawn you expect without the use of costly and sometimes harmful chemicals.

### ➤ Spend Less Time MOWING

Our 3-D Sod provides less vertical growth and a lower canopy height. It's an attribute with a benefit that is terribly simple to understand... less mowing! Stop spending all weekend working on your lawn rather than just enjoying it.
