Self Repairing Sod Solution.

Better Overall APPEARANCE

Aside from the aesthetic beauty of a thick lawn the new 3-D Sod's improved density will help compete with weeds by actually squeezing them out. Plus, 3-D Sod will green-up quick in the spring giving you the first green lawn on the block.

Less Needed FERTILIZING

3-D Sod has been specially designed to yield a naturally darker turf. Simply put, this means less fertilizing! You'll be able to have the same rich green lawn you expect without the use of costly and sometimes harmful chemicals.

Spend Less Time MOWING

Our 3-D Sod provides less vertical growth and a lower canopy height. It's an attribute with a benefit that is terribly simple to understand... less mowing! Stop spending all weekend working on your lawn rather than just enjoying it.

Tall Fescue (S.R.P.)

DARKER: 3-D Sod has been specially designed to yield a naturally darker turf. Simply put, this means less fertilizing! You'll be able to have the same rich green lawn you expect without the use of costly and sometimes harmful chemicals.

DENSER: Aside from the aesthetic beauty of a thick lawn the new 3-D Sod's improved density will help compete with weeds by actually squeezing them out! Plus, 3-D Sod will green-up quick in the spring giving you the first green lawn on the block.

DWARFER: Our 3-D Sod provides less vertical growth and a lower canopy height. It's an attribute with a benefit that is terribly simple to understand... less mowing! Stop spending all weekend working on your lawn rather than just enjoying it.

Sod Seed That Has Self Repairing Attributes.

The New 3-D Sod Tall Fescue S.R.P. (Self Repairing Potential) is a turf that is good for areas that require it to heal from over usage, wear, and high traffic areas. This specially formulated product has the ability to repair itself under these conditions. We have selected the elite tall fescue varieties that are all Rhizomonous. Finally, a Rhizomonous Tall Fescue that meets 3-D Sod Standards.
